Insights

- Monthly Trend-

Sales vary across different months, with some months performing better than others.

- Top Product Categories-

Some product categories contribute significantly more to overall sales.

- Repeat Customers-

The number of repeat customers is relatively low compared with the total customer base, indicating an opportunity to improve customer retention.

- Average Review-

The average review score of **4.09/5** indicates generally positive customer feedback.

- Average Delivery Days-

Orders took an average of **12.5 days** to reach customers.

- On-Time Delivery-

92.13% of delivered orders were delivered on or before the estimated delivery date.

Recommendations

- Monthly Trend-

Focus marketing campaigns and offers during months with stronger sales potential.

- **Product Categories-**

Give more visibility to high-performing categories and analyze their sales patterns.

- **Repeat Customers-**

Introduce loyalty offers or personalized discounts to encourage customers to purchase again.

- **Customer Reviews-**

Maintain service quality and investigate orders receiving low review scores.

- **Delivery Time-**

Identify sellers or locations with longer delivery times and investigate the reasons.

- **On-Time Delivery-**

Analyze late deliveries to identify opportunities for improving delivery reliability.
